Bharat Mandapam, New Delhi, India

POWERING THE FUTURE OF MANUFACTURING

200+ Exhibitors | 50+ Expert Sessions | 150+ Product Launches

The Future of Making Things Is Here.

Industry 4.0 is no longer a vision — it is today's operating system. From AI-driven tooling and predictive maintenance to collaborative robotics and digital twins, the technologies reshaping manufacturing are ready for deployment. Tools and Equipment Expo 2027 is the definitive event for engineers, plant managers, and industry leaders building the smart factory.

What's New in 2027

**AI-Powered
Tooling**

**Predictive
Maintenance
& IIoT**

**Digital
Twins**

**Collaborative
Robotics**

**Additive
Manufacturing**

**Edge Computing
& Real-Time
Analytic**

**Generative AI
for Design**

Explore the Expo Zones

Zone	What You'll See
Smart Tooling Zone	Intelligent cutting tools, adaptive work holding, sensor-enabled systems
AI & Automation Pavilion	Machine vision, AGVs, AI-driven inspection
Digital Manufacturing Hub	MES platforms, cloud production management, digital thread
Robotics & Cobotics Arena	Live cobot demos, pick-and-place, welding automation
Additive Manufacturing Lab	Industrial 3D printers, rapid prototyping, hybrid systems
Green Tech Corner	Energy-efficient equipment, waste reduction, circular manufacturing

Conference Tracks & Learning

Track	Focus
Manufacturing 4.0 in Practice	Smart factory case studies, scaling AI, OT cybersecurity
AI & Data-Driven Manufacturing	ML for process optimization, computer vision, generative design
The Human Side of Industry 4.0	Workforce upskilling, human-machine collaboration, change management
Hands-On Workshops	AI design tools, live robotics challenges, digital twin walkthroughs

Who Should Attend

- Manufacturing Engineers & Plant Managers
- R&D and Product Design Teams
- C-Suite Executives & Operations Directors
- IT/OT Integration Specialists
- Supply Chain & Procurement Professionals
- Industry 4.0 Consultants & System Integrators
- Dealers | Traders | Distributors

Network With Industry Professionals

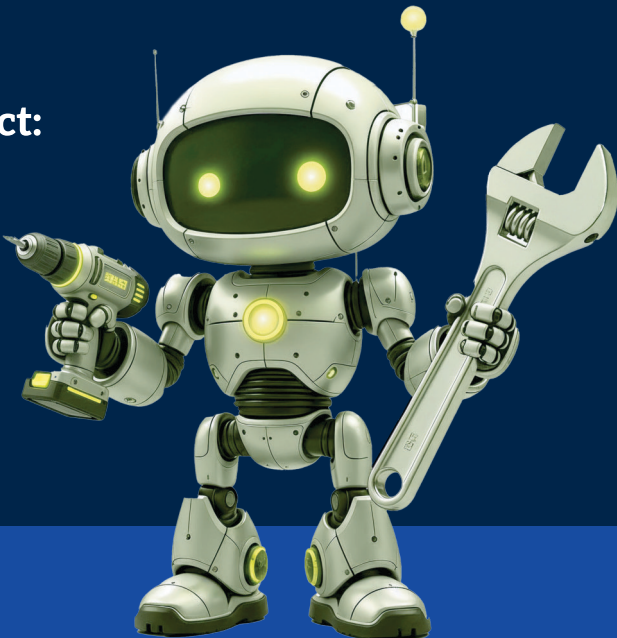

- See 200+ exhibitors with the latest tools and equipment
- Experience live AI-driven manufacturing demonstrations
- Network with 10,000+ global industry professionals
- Gain actionable insights from 50+ expert-led sessions
- Discover practical pathways to implement Manufacturing 4.0

Tools and Equipment Expo 2027 Building the Smart Factory – Together.
